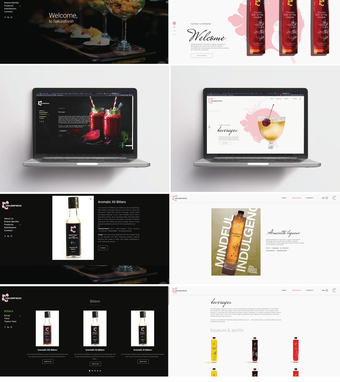
Design. Redesign

In 2019, I received a request to create a website for the recently established Sakurafresh. The initial plan was to develop a site that would serve as a temporary platform for the brand's upcoming product launch and subsequently be replaced by a more comprehensive site. The COVID pandemic disrupted our plans, and the redesign was substantially delayed until the autumn of 2022.


Design of 2019 (L) and 2023 (R) redesign
